# Life Assessment

Here Is Where You Start. Before Setting Your Goals, Make An Assessment Of Your Current Life. See Which Area Are Flourishing And Which One Could Use Some Improvements Then You Can Decide How This Chart To Look In Future And What Are Steps You Need To Give Your Life More Balance.

Give Notes From 1(very Bad) To 10(very Good) To Each Area Of Your Life. Then Color Accordingly (1 Is Closest To The Center Of Circle & 10 Is At The Edge Of The Circle). You Will Have Vivid Visual Representation Of The Way Your Life Is Currently As Oppose To The Way You Had Ideally Like It To Be.
